

Dear puppeteers, dear colleagues,

The European Commission of UNIMA is keen on creating a “Road of Puppetry” throughout Europe. This project is supported by the German and international UNIMA: www.road-of-puppetry.com
This project is planned as a directory for tourists that are especially interested in puppetry and similar forms of theatre. Travelling along this route would enable people to go from one place to another and thereby visit a number of theatres that are otherwise unknown.

The different places will be marked on a map and listed in a catalogue online. These should have opening hours for guests to make a visit possible. We aim to describe the unique art in every one of these theatres and workshops by giving a short summary. More information can then be found on the individual websites. For this purpose, we would like to create a kind of business card for every place on the map. To include you in this project and give a short, impressive idea of what you are doing, we need a good picture of your institution and would like you to answer the following questions (don't worry – this should only take about ten minutes of your time!).

After finishing save this document with the name of your theatre and send it back to your local UNIMA-Center or to:
info@road-of-puppetry.com

Best Regards

Ruth Brockhausen
2nd board of UNIMA Germany

road of puppetry

Name of the puppet-place:
